

My *favourite* property...

Beat Hartmann of Hartmann & Singleton, one of our Leading International Agents & Developers in Switzerland explains what makes Grindelwald such a special alpine resort

The friendly glacier village of Grindelwald sits in an imposing and unspoilt alpine landscape. The world-famous summits of the Eiger, Mönch and Jungfrau form the backdrop to Grindelwald's scenic stage and make this the perfect whole year around alpine destination.

Grindelwald offers everything that a mountain-lover could possibly desire: from flower-filled meadows to rugged cliffs and everlasting ice. The many mountain railways and cableways make it easy for every visitor to reach the heady heights with a minimum of effort. Grindelwald is popular with visitors throughout the year as each season has a large range of leisure and pleasure attractions. In summer you can enjoy a romantic stroll through fragrant flower-carpeted meadows or cool down on an unforgettable mountain tour over the glacier snows. In autumn, superb hiking trails invite you to enjoy seasonal splendour at impressive vantage points.

The three regions Grindelwald-First, Kleine Scheidegg-Männlichen and Mürren-

Schilthorn together offer a total of 213km of ski runs ranging from fast to leisurely, and from six to 12km in length. A total of more than 40 per cent of the ski runs are equipped with snow-making machines. In the Jungfrau region however, non-skiers also get their money's worth: 100km of winter footpaths enable you to explore the mountains on foot. But not only fans of the great outdoors will love our array of attractions - the many restaurants and hotels pamper you with first-class food and wine.

Grindelwald has long been an insider tip for true relaxation, first class service with a family touch, luxurious appointments and a breathtaking panorama. You can become the proud owner of an exclusive apartment or chalet in unparalleled location above the four-star Romantik Hotel Schweizerhof in the centre of Grindelwald next to ski lifts and with all amenities on your doorstep.

Here you can live regally within your own four walls – and upgrade your lifestyle to luxury class whenever it takes your fancy. Owners benefit from the following services

including VIP Club, wellness facilities, hotel restaurant and bar, business centre, reception desk services, porter service, laundry and cleaning service, shopping service, property preparation prior to arrival and cleaning after departure.

The interior of every chalet is chosen by each individual but nothing is as new as the forgotten traditions. In this region the key revitalising element is the breathtaking nature and unspoilt mountain world. The chalet style of your new home reflects the best traditions of the Bernese Oberland, while taking full account of the modern comforts. Owning a property in Switzerland is a lifestyle and with such a great concept, services and surroundings it's easy to understand why! ■
